DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-9, 25-27, 30-33 are rejected under 35 U.S.C. 102(b) as being anticipated by Sivachenko (4,291,510).

Sivachenko discloses several spaced-apart frame members (4) connected by cross members (8). The each frame member (4) has a generally horizontal, corrugated protrusion (36) formed on an upper corner portion of the frame member (4). Each protrusion opposes a protrusion on another frame member (4). Each cross member (8) has a corrugated end portion that mates with a corrugated protrusion (36). Bolts (54) connect the protrusions to the end portions. The corrugations are formed with a generally “w” shape. The lower ends of the frame members (4) are capable of being coupled to a vehicle as broadly claimed.

Allowable Subject Matter

3. Claims 1-5, 10-14, and 20-24 are allowed.
4. Claims 28, 29, and 34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Blankenship whose telephone number is (703) 305-0223.
